ENCORE PRESENTS "NEW" CARNIVAL GLASS CONVENTION

When you consider that the Encore Convention is sponsored and promoted by Dorothy and Bill Taylor and not by a club, one must appreciate the work and devotion that goes into such an undertaking. Conventions that are successful are usually the work of many individuals. Consequently, the efforts of the Taylor's to bring collectors and dealers of "new" carnival glass (1960-1980) together to disseminate information and to share experiences, should be noted and applauded.

Attending the Encore Convention held at the Western Hills Motel April 20-21-23 was an exciting experience. Approximately thirty dealers from all over the country displayed glass in their rooms and active buying, selling and trading took place all three days.
