PACKY THE ELEPHANT PAPER WEIGHT
BY
WILMA THURSTON

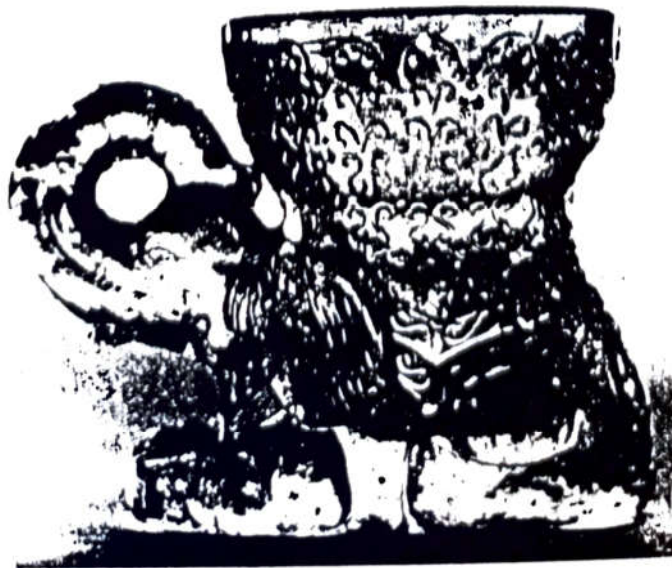

This is nineteenth in a series of glass made in the 1980's.

Packy is a Circus Elephant Paper Weight with all the trappings. The flower embossed basket on his back is a paper clip holder. He is 3" tall. The Elephant Paper Weight was made for Craig Glass Art Collectibles of Fort Wayne, Indiana.

There was to be 1,000 or less made per month. It is an original new mould that is signed and dated. The mould was retired after all the colors were made.

I have only seen one of these and it was last year in Marietta, Ohio at the flea market. I didn't buy it and I now wish I had. They are very hard to find.

I could only find seven colors plus the one I saw, so I don't know if there were more colors made or not. If any of our members know of anymore colors please let me know.

Packy Elephant Paper Weight colors are listed below:

September 1980	Mardi Gras Slag	323	Made
	Mardi Gras Carnival	329	Made
October 1980	Blue Confetti	356	Made
	Blue Carnival
