

CARNIVAL GLASS ROSEBOWLS

The following information on Patterns, Maker and Colors of the presently known Carnival Glass Rosebowls is assembled and recorded for the educational benefit of the Carnival Glass Collector, both present and future. It is hoped that each member finds it beneficial and adds to their Carnival Glass knowledge.

The preparation, compiling and presentation of this information has taken many hours of work and would not have been possible without the generous time and help of several knowledgeable H.O.A.C.G.A. members. In some cases conflicting information has been received. I have tried, in those cases, to present the opinion of a majority of those responding.

I want to thank all of those members who provided pictures, comments and information pertaining to the different Rosebowl patterns; without your help this section of the notebook would not have been possible. I especially want to thank Carl & Eunice Booker, Bob & Nancy Stremming, John & Lucille Britt, Dave & Emma Ackerman, Clarence & Dorothy Bechtel, L. L. & Jane Dinkins and Don & Connie Moore for their help in supplying pictures of Rosebowls and compiling lists of the various patterns. I also want to thank my wife Rosa for compiling and typing the lists several times.

Photographs of some of the known patterns were not obtained in time to be included in this printing. Those patterns will be listed on the last page and photographs will be prepared at a later date.

We, as members, owe our thanks to the following people for their help with this section.

Dave & Emma Ackerman	Cass City, Michigan
Fred & Norene Andreatta	Lisbon, Ohio
Clarence & Dorothy Bechtel	Beecher, Illinois
Carl & Eunice Booker	Griffith, Indiana
John & Lucille Britt	Manhattan, Kansas
Sterling Butz	Allentown, Pennsylvania
Jerry & Norma Cole	Blue Springs, Missouri
