

SMALL PLATES

This is the second and concluding section on small plates. It contains the remaining pattern plates which were not included in the first section and the lettered (advertising) small plates. The Pattern identification is listed as Inside/Outside pattern.

The section on Small Plates has been difficult to assemble because of the varied opinions of what is a plate. You may not agree with some of the small plates pictured in this section, but they are presented and each collector can decide. This information is assembled and presented for the benefit of the Carnival Glass collector.

Many thanks to to the H.O.A.C.G.A. members who supplied the photographs and information pertaining to the plates. I want to give special thanks to John & Pat Resnik for supplying the photographs and information from their extensive collection of Advertising and Lettered plates.

Appreciation also goes to Mr. Frank Fenton, of the Fenton Art Glass Company, for supplying some of the much needed last minute photographs.

Thanks to the following members for supplying information for this section:
