

SONNY BOY
BY
WILMA THURSTON

This is Sixth in a series of glass made in the 1980's.

Sonny Boy looks like a little boy ready for bed and has fallen to sleep with his Terry Bear.

Sonny Boy is a 3" tall figurine made by R. Wetzel Glass for Our Gang Collectibles. He is a very limited edition. There was to be only 18 colors, but I think the series was discontinued before the 18 was finished. No color run was to exceed 1,000 pieces.

Sonny Boy is marked with his name, the number of the color edition (1 thur 18), the name of his producer, the initials of his manufacturer, and the year date. This little guy is thoroughly marked with it's vital statistics.

The colors I have found are listed below:

ANTIQUÉ MARIGOLD
ELECTRIC BLUE
SNOWY LIME
ROYAL PURPLE AGATE
MANDARIN JADE
AUTUMN GLOW
ORIENTAL PEARL (MOTHER OF PEARL)
GLACIER BLUE (COBALT SLAG)
EMERALD LUSTER
COBALT BLUE CARNIVAL
